

RESOURCING CAPABILITY

Contact 01963 34444

ALS has an extensive knowledge of supplying Permanent and Contract Engineering Resources across the Defence and Aerospace Domains.

Our Candidate Database has been developed in excess of 30 years through partnering, Professional Networking and continued work with clients such as Agusta Westland, Cobham, BAE Systems, Thales, QinetiQ and DSTL.

Candidate Sourcing and Delivery

Our Database is built up over 30 years of Professional Networking and Peer references across the UK's Defence and Aerospace domain.

When sourcing engineers from outside of our network, ALS require candidates to provide up to 3 years of professional references.

Our Recruitment Process

ALS is committed to supporting our Engineers throughout our stringent Recruitment process.

Prior to submission; ALS provide the candidate with Clear job requirements. We establish salary expectations, request written confirmation of intention to continue before taking verbal peer references.

After Candidate Submission; ALS interface to our clients to offer timely feedback on CV submission.

After Interview; ALS commit to offering prompt and timely feedback, we endeavour to provide the best service to Clients and Candidates alike.

ALS is a supplier of multi disciplined Engineering resources across the A&D industries.
